

Think Global. Empower Innovation.

Merger and acquisition activity in Life Sciences is expected to vault forward after a recent slowdown. As consolidation and scale reshape the market in the coming year, companies have a keen eye on maximizing every merger.

We work with HR teams to ensure that business immigration issues are handled seamlessly and contribute to a successful transition.

65%

of Life Sciences executives who are looking to acquire are focusing on international assets.¹

95%

increase in worldwide value of cross-border deals across all industries.³

45%

of revenue growth is expected to be spurred by global M&A over the next 3 years across all industries.²

WR Immigration is a top-rated immigration law firm that provides strategic, client-centered services. Our technology, innovation, and service help empower HR and foreign-born workers to keep innovating, globally and locally.
